

Getting Ready for College Entrance Exams

SAT/ACT TEST PREPARATION MINI-COURSE

The SAT/ACT Test Prep Mini-Course is a series of online workshops that were developed to help high school students get ready for college entrance exams. From test-taking hints to the review of specific English and math concepts, the workshops are intended to help students get ready for the SAT and ACT.

Do I Have to Pay to Use the Mini-Course?

Absolutely not! These workshops were created with funds from the BorderLink Project. Now they have been linked together into a mini-course, and they have been made available to any student anywhere who can benefit from using them.

How Can I Access the SAT/ACT Mini-Course?

The workshops are available online for student use 24 hours per day. Simply access the mini-course at <http://testprep.borderlink.org>.

BorderLink Project Overview

The BorderLink Project was a federally-funded Technology Innovation Challenge Grant (1999-2004) that focused on applying existing and emerging technologies to formerly insurmountable classroom learning and instructional obstacles in remote and geographically isolated high schools.

The Imperial County Office of Education, in partnership with the San Diego County Office of Education, used grant funds to level the playing field for all high school students in both counties. The mission of the BorderLink Project was to “use technology to remove barriers to post-secondary opportunities for students in remote and isolated schools.”
